## PROJECTS

### EXQUISITE CORPSE | [GitHub](#)

Collaborative drawing app based on a Surrealist art game. Users can generate a unique game room for other players to join, featuring a collaborative whiteboard for creating compositions. Game involves each user composing a part of the drawing in secret.

- Built with: React, Canvas API, Tailwind, Vite, Node.js, Socket.io
- Socket.io allows for real time, bidirectional communication between users.

### MOOD JOURNAL | [GitHub](#)

App with a daily check-in about how you're feeling. Each check-in is scored and assigned a color which will display a graph for a visual representation of it. Developed with MVC architecture.

- Built with: JavaScript, EJS, Tailwind, Node.js, MongoDB, Passport.js
- Ideated and developed with a team of 10 engineers.
- Created the wireframe and UI design in Figma.
- Provided project management for the team.
- Developed the EJS template for the dashboard and worked on the architecture for the routes and controllers in the backend.
